Objective

As a proficient team leader, I guide projects and teams to success, boasting expertise in **PHP**, **HTML**, **CSS**, **JavaScript**, **Node.js**, **SQL**, **MongoDB**, **JWT**, and more. Additionally, I'm skilled in **C#**, **C++**, and have developed my own markup language. I excel in managing web hosting and have adeptness with **Electron** and various JavaScript libraries. Alongside, I'm proficient in **Microsoft Office** tools. As a seasoned freelancer, I deliver exceptional results, with a strong familiarity with **frameworks** such as **Laravel** and **React**. I'm also well-versed in **Linux**, **networking**, and **servers** — handling **ports**, **port forwarding**, and tunneling with **ngrok** — alongside **Git**, **Docker**, and **Nginx** for smooth **CI/CD** and deployment.

Experience

Freelancer – Full Stack Developer on [Arzaq Plus] SEP 2024 – APR 2025

Developed custom web solutions using **PHP**, **Laravel**, **HTML**, **CSS**, **JavaScript**, **Node.js**, and **Express** and Implemented **SQL** and **MongoDB** databases.

With **client satisfaction** and clear communication and timely project delivery. Continuously improved skills to provide cutting-edge solutions.

Completed Projects: [22]

Additionally, initiated numerous **self-directed projects** aimed at honing skills and exploring new technologies.
